Shreyas Sampathkumar

Developer | Ex-intern at TCL | Ex-intern at Platformatory Labs |
NITK-26
Bengaluru, Karnataka, India

Experience

ThoughtsCrest Software
Software Developer
May 2025 - August 2025 (4 months)
Bengaluru South, Karnataka, India

Contributed to the development of TCL Automate, a banking automation platform, where I worked on both backend API automation and frontend UI development for core banking processes.

Built and extended dynamic UI modules like Users, Systems, Versions, and Business Processes

Integrated backend APIs with React Query for efficient data fetching and caching

Implemented search filters, highlighting, modular drawers, and permission-based access control

Developed utility modules for login, request ID injection, error handling, and payload formatting

Designed all APIs to accept JSON input directly via terminal for automation use cases

Fine-tuned DeepSeek-Coder-1.3B using LoRA (PEFT) for efficiency

Created high-quality prompt-completion datasets from real banking use cases

Platformatory

Frontend Developer intern
May 2024 - July 2024 (3 months)
Bengaluru, Karnataka, India

During my internship at Platformatory Labs, I contributed to the development of two key products: Eventception and RTDx. I focused on the frontend, utilizing my React.js skills to code several pages and did api integration as well.

Additionally, I implemented Jest testing framework to write comprehensive test cases for all components, ensuring robust and reliable code. I also applied Tailwind CSS to design and refine various pages, enhancing the visual appeal and usability of the products. This experience allowed me to deepen my frontend development skills and work collaboratively in a dynamic team environment.

Incident NITK
Web Developer
January 2024 - March 2024 (3 months)

Education

National Institute of Technology Karnataka
Bachelor of Technology - BTech , Electrical, Electronics and Communications
Engineering · (2022 - 2026)

Chinmaya Vidyalaya
PCM CS · (July 2008 - January 2022)
